Appendix A

OPEN CONSISTENCY SINGLES CHAMPIONSHIP CONDITIONS OF PLAY

1. PLAYER ELIGIBILITY & MARKING.

- a. This championship is open to all men and women who are Full Bowling Members of the Merrylands Bowling Club. Players may be graded or ungraded.
- b. It is also a requirement that should any entrant lose a preliminary round, he/she must be available to be a Marker or be responsible for providing a Marker for any subsequent game. Failure to satisfy this requirement may result in a penalty, such as exclusion from entering other Club Championships as will be determined by the Bowls Committee. It is expected that Markers be formally attired in his/her Club uniform or according to Bowls NSW guidelines.

2. FORMAT OF GAME.

- a. The game is essentially one played as a Singles game, overseen by a Marker, and is played in conformity with the current 'Bowls Australia- Laws of the Sport of Bowls' (Crystal Mark Edition).
- b. As in a normal Singles Championship, each bowler delivers 4 bowls, in alternate sequence, to be as close as possible to the Jack which remains at a 'fixed' location on the rink during an end.
- c. However, there is a limitation..... should the Jack be moved/driven into the Ditch or Out-of-Bounds during the course of play, the end is automatically terminated and the maximum points (10) for that end will be awarded to the opponent of the Player who caused this outcome. Normally, there is no scoreless end in this game.

3. OBJECT OF THE GAME.

- a. Once the Jack has been rolled by the Player beginning the end, the Marker places a flat washer centrally on the rink at that distance from the mat, and mounts the jack on it, where it remains, or to where it is returned (see Cl.4), for the duration of the end. Players alternately deliver their bowls to try to ensure a maximum of his/her Bowls are closest to that Jack, and the nearest bowls are allocated a score (see Scoring, Cl.5). The game continues until at the conclusion of an end, one Player has accumulated 150 points or more and is declared the winner. The player with the higher score from the previous end will roll the jack and play first. If both players score the same points, the player who went first on the previous end will again go first and roll the jack.

4. DISPLACEMENT OF JACK.

- a. Anytime during the course of play, should the Jack be moved off the washer by a Bowl, with the Jack remaining in play on the Rink (not in the Ditch), the Marker will place the Jack back on the washer (however, see Cl.5 B below). If the delivered Bowl has made direct contact with the Jack and remains 'alive' within the rink boundaries (including, in the Ditch), it shall be marked as a 'Toucher' by the Marker.
- b. If a resting Bowl partially obstructs the washer so that it is not possible to place the Jack back on the washer, the Jack shall be placed so that its nearest part is as close as possible to the centre of the washer.
- c. If a resting bowl totally obscures the washer, the Jack is placed behind, and in contact with, the obstructing Bowl, where it remains until the Marker can replace it on the washer. The Marker must watch for this during the remainder of the end as the obstructing Bowl may be sufficiently moved by a subsequent bowling action.
- d. If at the completion of the end, a bowl(s) is covering the washer, once the bowl(s) that is covering the washer is counted, the jack is immediately replaced on the washer for further measurements.

5. SCORING.

- a. At the conclusion of each end played, Players decide by mutual agreement (and measurement, if necessary)-
 - i. the closest bowl to the Jack, which is worth 4 points,
 - ii. the 2nd nearest bowl, which is worth 3 points,
 - iii. the 3rd nearest bowl, which is worth 2 points, and
 - iv. the 4th nearest bowl, which is worth 1 point.
 - v. if bowls are tied, the points of the bowls that are tied are added and then divided by the number of bowls that are tied to work out the score for each bowl.
 - vi. There can be no more than 10 points scored on any end.
- b. The 5th nearest and all other remaining 'live' bowls are worth 0 points.
- c. Under normal circumstances, the total points allocated for each end is 10 points.
- d. However, if 3 or fewer bowls remain 'live' on the rink of play, the total points allocated for an end can be less than 10.

6. DECIDING THE WINNER.

- e. As cited in Clause 3, play continues until at the conclusion of an end (where each player has delivered 4 bowls), one Player has accumulated a minimum of 150 points and the other has accumulated less than 150 points.
- f. If after the particular end, both Players have accumulated a minimum of 150 points, then the Player with the higher score is declared the Winner.
- g. If after the particular end, both Players have accumulated 150 points and therefore, are tied, further end(s) must be played until one Player achieves a higher score than the other and can be declared the Winner.
